Sorting Metals

A WORLDWIDE LEADER

MANUFACTURING
OF METAL
SORTING
EQUIPMENT

RegulatorCetrisa

Since its inception, **REGULATOR-CETRISA** has been involved in the field of high precision engines and equipment in Eddy Current speed control. With its own developments and patents, and thanks to a major commitment to R&D&i, it has always worked very closely with Magnetism and Eddy Currents.

Extensive experience in Magnetism and Eddy Currents has allowed **REGULATOR-CETRISA** to **DEVELOP** and **MANUFACTURE** a complete and high performance range of units for sorting and recovery of metals.

SEPARATION and RECYCLING METALS

Since the beginning, a firm commitment to the quality of its products, a continuous job in R&D&i and the objective of satisfying the client's needs have allowed **REGULATOR-CETRISA** to be considered one of the best specialists in equipment and installations for separating and recycling metals.

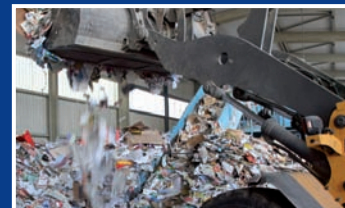

Aim of **REGULATOR-CETRISA** is to provide the most adequate solutions to materials treatment. So, new developments are added to its portfolio for getting the best results.

- **Sorting Metals Equipment**
- **Complete Systems, to be integrated into your processes**
